Index of the key words

Abdominal pain 180
Acanthocytosis 228
Acute polyradiculoneuritis 54
— transverse myelitis 185
Adenylate kinase 297
Adrenergic drugs 340
Adrenocortical insufficiency 23
Adrenoleukodystrophy 306
Aetiology 25
AIDS 140
Alcoholic cerebellar degeneration 212
— neuropathy 212
Alcoholism 13, 161
Aldose reductase inhibition 174
Alzheimer's disease 118, 157, 164, 370
Amaurosis fugax 209
Amyloid 370
Amyotrophic lateral sclerosis 376
Amyotrophy 57
Anatomical landmarks 73
ANOPS 77
Angiography 283
Antibody specifity 224
Anti-HTLV III antibodies 140
Antinuclear antibody 185
Arterial wall rupture 267
Arteriosclerosis 118
Arteriovenous malformation 48
Ascending paralysis 233
Aspergillus 41
Astereognosis 57
Ataxia 13
— telangiectasia 304
Autoimmune disease 233

Bacterial endocarditis 51
Ballism, bilateral 25
Bannwarth syndrome 69
Barrier transport 195
Basal ganglia calcification 19
Basilar artery 61
Beta-galactosidase deficiency 306
Blood-brain barrier 358
— cortisol 274
Body temperature 274
Borrelia antibodies 69
Brachial plexus 131
— root 131
Brain-damaged children 274
— gangliosides 54
— infarcts 118
— ischaemia 367
— neoplasms 358
—stem 145
—— auditory evoked potentials 23
Calcium 348
— channel blocking agent 59
— metabolism 19
Carcinoembryonic antigen 358
Cardiomyopathy 248
Cellular immune response 54
Central gyrus 73
— pontine myelinolysis 23
Cerebellar atrophy 5
Cerebellum 13, 145
Cerebral atrophy 164
— blood flow 209
— embolism 267
— hemorrhage 200
— infarction 257, 297
— vasospasm 348
Cerebrospinal fluid 41, 140, 157, 202, 237, 297, 358, 376
—— immunoglobulins 362
Charge pulse fusion 153
Chickenpox 182
Chronic inflammatory polyradiculoneuropathy 202
— pain 16
Circadian rhythmicity 1
— rhythms 274
Clonidine 178
Collagen disease 185
Coma 34
Computed tomography 5, 73, 164, 254, 283
Computer 77
Congenital absence 263
— fibre type disproportion 248
— muscular dystrophy 248
CO_2 reactivity 367
Corticosteroid 221
CSF cells 153
CT 218
— findings 200
Cyproheptadine 311
Cryptococcus neoformans 362
Cyclic AMP 297
Cytogenetic 168

Dementia 157
Detachable balloon embolisation 323
Diabetic neuropathy 174
Dielectrophoresis 153
Dopamine antagonists 25
Downbeat nystagmus 145
Duchenne muscular dystrophy 168

EEG 367
Electrodes 16
Electromyography 77, 83
Electron microscopy 348
Emery-Dreyfus dystrophy 248
—— muscular dystrophy 108
Encephalitis 102, 289
Entrapment neuropathy 180
Epidemiology 257
Epidermal growth factor 376
Endocrine system 370
Etiology 171
Experimental allergic encephalomyelitis 242
Exteroceptive reflexes 340
Eye movement 136

Fahr's syndrome 19
Familial gliomas 142
False-negative 218
—-positive 218
Fc-receptor 289
Fetal tissue 242
Fibrochondrosarcoma 309
Fisher syndrome 202
Fresh cells 242
Girls 168
Glaucoma 209
Glial fibrillary acidic protein (GFAp) 157
Glioblastoma 218
— multiforme 142, 263
Guillain-Barré syndrome 202, 221, 233
Haemorheology 30
Hashimoto's thyroiditis 233
Hemianopia homonymous 97
Hemineglect 97
Herpes simplex virus 289
High-dose steroid therapy 185
History of medicine 123
Human cell types 153
Hypertension 200
Hyperthyroidism 126
Hypoglycaemia 149
Hypothalamic lesion 1

Identical twins 304
IgG subclasses 289
Ilioinguinal nerve 115
Impedance audiometry 90
Incidence rate 257
Individual proteins 195
Interferon 102
Internal carotid arteries 263
Interventional neuroradiology 323
Intracranial arteries 44
— tumour 309
Intraspinal conduction time 271
Isobutyl-2-cyanoacrylate 323

Klippel-Trenaunay syndrome 48

Lacunar infarcts 30
Late rupture 51
Lesions 131
Leucoencephalopathy 242
Levodopa 149
Locomotion 311
Long latency reflex 271
Lumbar cerebrospinal fluid 195
Lyme disease 224
Lymphocytes 373

Macrophages 373
Magnetic resonance urinaging 283
Measles panencephalitis 102
Megadolichobasilar artery 263
MELAS 228
Meningoencephalitis 362
Meningioma 218
Meningitis 41
Meningoencephalitis 19
Meningopolyneuritis Garin-Bujadoux-Bannwarth 224
Migraine 123, 257
Mitochondrial encephalomyopathy 228
Multicentric gliomas 142
Multiple sclerosis 54, 59, 90, 171
Muscle differentiation 168
Mycotic aneurysm 51
Myofilament 348
Myonecrosis 348

Neoplasm antigens 358
Nervous system 140
Neuralgia 115
Neurinoma 57
Neurocutaneous angiomatosis 48
Neuro-immunology 242
Neurological diseases 373
Neuropathy 69
Normal mentation 200
— values 271
Nystagmus 136

Occurrence 171
Oculographic diagnosis 97
Oculomotor nerve 61
Oligoclonal bands 202, 224
Optic neuritis 182
Oxycodone 178

Pain 115
Palpebral asymmetry 126
Parenchymal density 164
Parkinson's disease 118, 149
Particulate embolisation 323
Pathological substrate 25
Pellagra 228
Percutaneous transluminal angioplasty 336
Periorbital pain 209
Peripheral neuritis 233
Pharmacogenetic classification 83
Pilot trial 59
Pituitary hormones 149
Pleocytosis 237
Polyneuropathy 13
Pons 200
Postprandial 209
Posturography 212
Precentral sulcus 73
Proteases 373
Psychopathology 16
Ptosis 126

Radiation-induced tumour 309
Ragged-red fibres 228
Reticular fibre deficiency 44
Retinal microcirculation 30
Rhizotomy 115
Rigid spine syndrome 248

Sarcoma 309
Scapuloperoneal syndrome 108
Self-mutilatory behavior 178
Senile dementia 118
Sinus thrombosis 283
Sleep-wakefulness 274
Somatosensory evoked potentials 34
Somatostatin 370
Sorbinil 174
Spasticity 304, 311
Spinal cord injury 311
—— stimulation 16
Spontaneous intracerebral haemorrhage 48
SSPE 102
Stapedius reflex 90
Stenosis 336
Stiff-man syndrome 340
Stroke 257
Subarachnoid haemorrhage 44
Suprachiasmatic nucleus 1
Swine brain implantation 54
Systemic lupus erythematosus 185

TB meningitis 237
Thalidomide-induced neuropathy 83
Tight junction pores 195
Tissot 123
Total protein 195
Transverse myelitis 182
TRH 149
Tuberculous meningitis 254
Tourette's syndrome 178

Vasculitis 69
Vasospasm 267
Verapamil hydrochloride 59
Vertebral artery 336
Vertigo 136
Virus 102
Visual evoked potential 161
Vitamin B_{12} deficiency 145
